Frontend Developer with solid **4.5+ years** of experience specializing in scalable UI architectures for web applications.

Skills

- **Languages:** Javascript, Typescript
- **Technologies & Tools:** HTML, Css, React, Angular, Next.js, SSR, SSG, Redux, Zustand, React Query, Storybook, Vite, Webpack, Tailwind CSS, Npm, Micro Frontends, GraphQL, Git, Tailwind CSS, Sass/Scss, Node.js
- **AI Tools:** ChatGPT(OpenAI), Gemini, Perplexity, Claude, GenerativeUI

Achievements

- Won 🏆 1st place at Recruiterflow's first-ever Hackathon!
- Won **cheerful coder** award while working with Technogetic

Experience

Frontend Engineer

October 2025 – Present

Recruiterflow

Bangalore, India

- Led the redesign of the core Job Profile experience — the most-used screen in the platform — improving usability and driving measurable gains in user retention.
- Delivered features end-to-end from user interface through backend logic expanding beyond a frontend-only role.
- Overhauled the reporting and analytics module used by leadership to track hiring performance, improving accuracy and reliability of key business metrics.

Frontend Engineer

August 2023 – September 2025

Oodles Technologies

Gurgaon, India

- Boosted app load performance by 30% through strategic code splitting and React lazy loading, significantly improving Time-to-Interactive and reducing bounce rates on key entry pages.
- Implemented Single Sign-On (SSO) across 3 applications by building a centralized authentication system, streamlining user login flows and cutting support tickets by 15%.
- Enhanced geo-visual user engagement by integrating Google Maps with custom layers and dynamic overlays, leading to a 25% increase in dashboard session retention.
- Implemented **React virtualization** to efficiently render 5000+ list items, minimizing DOM operations and eliminating scroll lag for large datasets.

React Developer

May 2022 – July 2023

Technogetic pvt. limited

Mohali, India

- Built a reusable UI component library with Storybook, accelerating cross-team development by 20% and standardizing design implementation across multiple projects.
- Streamlined state management using Zustand for complex shared states, improving code maintainability and boosting readability by 40%.
- Enhanced web performance and responsiveness, significantly reducing CLS and LCP scores by applying Core Web Vitals best practices, resulting in a smoother user experience and improved SEO impact.
- Led the migration of legacy Angular 8 applications to Angular 20, modernizing the codebase, improving performance, and ensuring compatibility with the latest framework features

Education

Kurukshetra University *Kurukshetra, India*

July 2019 – June 2022

Bachelor in Computer Applications
